August 18, 2023

To Parent, Teacher & Employee Organizations:

The Haworth Board of Education has contracted with EnviroVision Consultants Inc. to act as their “Designated Person” as defined under the Asbestos Hazard Emergency Response Act (AHERA) of 1986. AHERA requires that all educational facilities be inspected for asbestos – containing materials and develop a remedial plan of action on or before May 9, 1989. In addition, each educational facility shall reassess all identified asbestos – containing materials or materials assumed to be asbestos, at least once every six months (Periodic Surveillance) and re-inspect those facilities every three years (Tri-annual re-inspection).

The Haworth Board of Education is in compliance with these requirements. The most recent Tri-annual re-inspection was performed in February 2021. “Periodic Surveillance” inspections are performed every February and August unless a Tri-Annual Re-Inspection is due. The latest “Periodic Surveillance” inspection was performed this month (August 2023), with the next one scheduled for February, 2024.

Following each inspection, appropriate remedial actions are recommended to the Board of Education by an accredited Asbestos Management Planner. The remedial plan of action and recommended schedules for implementation (Asbestos Management Plan) is available for review at the Haworth Board of Education Administrative Office.

We will continue to keep you informed of our AHERA compliance.

Respectfully Yours,

*Cathy DiNardo*

EnviroVision Consultants Inc.  
Designated Person on behalf  
of the Haworth Board of Education
