## **What is Select Art?**

Select Art is an Advanced Art class that meets every Friday for the entire year.

## **Tell me more about Select Art.**

In Select Art you will explore a variety of art techniques. This class will include 2-D and/or 3-D art techniques and materials we don't normally use in the regular art class. It may also include special projects for the art show and hallway displays. They will include more advanced techniques in drawing, painting, printing and more.

## **Is Select Art right for me?**

- You must love art and all techniques in art.
- You must be willing to try new ways of creating art and work on the projects assigned.
- You should be able to come with a positive enthusiastic mindset towards art every Friday.

## **How do I apply to be in select art?**

- Acceptance is based on a completed application, your enthusiasm and willingness to participate in all activities, and space in the class. Your completed application is a key part of being in Select Art.
- There will be a limit to how many students will be accepted, so please get a completed application to me as soon as possible.
