

Policy

TRANSPORTATION ROUTES AND SERVICES

The Haworth Board of Education directs the superintendent/principal to supervise development of bus routes to provide safe, economical and reasonably expeditious transportation for:

- A. Pupils who live remote from the schoolhouse as defined by New Jersey law;
- B. Educationally disabled pupils in accordance with their IEP;
- C. Pupils participating in board-approved extracurricular activities or field trips;
- D. Pupils whose route to the school is deemed hazardous by the board;
- E. Other pupils as required by law.

The criteria to be used in designing routes and assigning pupils to them shall include:

- A. The distance to be traveled to and from school;
- B. The age and state of health of the child;
- C. The requirements of the instructional program;
- D. The hazards involved on the route to be traveled.

Transportation to and from school shall be provided as required by law to eligible nonpublic school pupils and to pupils attending charter schools. All pupils riding on district buses shall be required to observe the district's bus conduct regulations including the use of safety belts in new buses or risk loss of the privilege of such transportation.

On a space-available basis, the board may transport both public and nonpublic students who live within statutory limits (courtesy busing). The board or a cooperative transportation services agency may charge for this service. The charge shall be equitable and shall include, but not be limited to, the cost of fuel, driver salaries and insurance.

Buses, whether contracted or district-owned, shall be kept in optimum condition and shall conform to all state safety regulations.

Bus routes must be acted upon by the board and submitted to the county office.

Courtesy Transportation Along Hazardous Routes

The Haworth Board of Education is concerned with the safety of students who walk to and from school along roadways determined to be hazardous routes. The superintendent/principal shall work in conjunction with municipal officials to determine the criteria necessary for the classification of a hazardous route and shall maintain a list of all hazardous routes in the district. The superintendent/principal shall develop rules and regulations to supply courtesy transportation for students who must walk to and from school along routes designated by the Haworth Board of Education to be hazardous routes. The criteria used to determine route may include but shall not be limited to the following:

TRANSPORTATION ROUTES AND SERVICES (continued)

- A. Population density;
- B. Traffic volume;
- C. Average vehicle velocity;
- D. Existence or absence of sufficient sidewalk space;
- E. Roads and highways that are winding or have blind curves;
- F. Roads or highways with steep inclines and declines;
- G. Drop-offs that are in close proximity to a sidewalk;
- H. Bridges or overpasses that must be crossed to reach the school;
- I. Train tracks or trestles that must be crossed to reach the school;
- J. Busy roads and highways that must be crossed to reach the school.

Students who would otherwise be required to walk to and from school along routes designated as hazardous shall be included in the calculation of the district's regular vehicle capacity utilization.
