

HEALTH

The board of education believes that good health is vital to successful learning. In order to help district pupils achieve and maintain good health, the board directs the chief school administrator to develop pupil health services that employ professional personnel and interact with both parents/guardians and community health agencies. The program shall include but not be limited to:

- A. Employment of a medical inspector to perform those duties required by law, and to advise the chief school administrator on all matters affecting the health of pupils;
- B. Employment of at least one certified school nurse to assist with physical examinations; conduct biennial scoliosis screening; conduct an audiometric screening; maintain pupil health records; observe and recommend to the principal the exclusion of pupils who show evidence of communicable disease or who have not submitted acceptable evidence of immunizations; instruct teachers on communicable diseases and other health concerns; train and supervise the emergency administration of epinephrine for school staff who have been designated as delegates; supervise other nursing tasks; provide appropriate response to Do Not Resuscitate (DNR) orders; maintain valid, current Cardiopulmonary Resuscitation (CPR) certification; review and summarize health and medical information for the Child Study Team; write and update annually the accommodation plan under Section 504 for any student who requires one;
- C. Provision of proper and adequate facilities, equipment and supplies for professional health personnel and other staff;
- D. Establishment of a system of pupil health records in compliance with state law;
- E. Implement the Core Curriculum Content Standards in physical education, health, family life, safety, and use of drugs, alcohol, tobacco and anabolic steroids; recommendations for appropriate equipment and supplies to teach such courses;
- F. Development of rules and procedures to foster good pupil health, and periodic dissemination of these rules and procedures to the staff;
- G. Development of a program to provide safe drinking water and otherwise to maintain the buildings, grounds, facilities and equipment of the district in sanitary condition in accordance with law;
- H. Development and enforcement of an eye protection program as required by statute and administrative code;
- I. A regular report to the board on progress and accomplishments in the field of pupil health;
- J. Health services to staff that support pupil health;
- K. Provision of emergency services for injury and sudden illness;
- L. Provision for required physical examinations including an examination to certify that a pupil returning to school after suffering a contagious/infectious condition or illness is no longer a threat to the health of others;
- M. Development of all regulations and procedures necessary for evaluation of pupils suspected of being under the influence of drugs/alcohol, tobacco or anabolic steroids;

HEALTH (continued)

- B. The symptoms of hyperglycemia for that particular student and the recommended treatment;
- C. The frequency of blood glucose testing;
- D. Written orders from the student's physician or advanced practice nurse outlining the dosage and indications for insulin administration and the administration of glucagon, if needed;
- E. Times of meals and snacks and indications for additional snacks for exercise;
- F. Full participation in exercise and sports, and any contraindications to exercise, or accommodations that must be made for that particular student;
- G. Accommodations for school trips, after-school activities, class parties, and other school-related activities;
- H. Education of all school personnel who may come in contact with the student about diabetes, how to recognize and treat hypoglycemia, how to recognize hyperglycemia, and when to call for assistance;
- I. Medical and treatment issues that may affect the educational process of the student with diabetes; and
- J. How to maintain communications with the student, the student's parent or guardian and healthcare team, the school nurse, and the educational staff.

The school nurse assigned to a particular school shall coordinate the provision of diabetes care at that school and ensure that appropriate staff are trained in the care of these students, including staff working with school-sponsored programs outside of the regular school day. The school nurse shall also ensure that each school bus driver that transports a student with diabetes is provided notice of the student's condition, how to treat hypoglycemia, and emergency/parent contact information. A reference sheet identifying signs and symptoms of hypoglycemia shall be posted in plain view within school buildings.

The school nurse shall have the primary responsibility for the emergency administration of glucagon to a student with diabetes who is experiencing severe hypoglycemia. The school nurse shall designate, in consultation with the board of education, additional employees of the school district who volunteer to administer glucagon to a student with diabetes who is experiencing severe hypoglycemia. The designated employees shall only be authorized to administer glucagon, following training by the school nurse or other qualified health care professional, when a school nurse is not physically present at the scene.

Upon written request of the parent or guardian and as provided in the individualized health care plan, the student shall be allowed to attend to the management and care of his/her diabetes in the classroom, on school grounds or at any school-related activity, if evaluated and determined to be capable of doing so consistent with the plan. The student's management and care of his/her diabetes shall include the following:

- A. Performing blood glucose level checks;
- B. Administering insulin through the insulin delivery system the student uses;
- C. Treating hypoglycemia and hyperglycemia;
- D. Possessing on the student's person at any time the supplies or equipment necessary to monitor and care for the student's diabetes;
- E. Compliance with required procedures for medical waste disposal in accordance with district policies and as set forth in the individual health care plan; and

HEALTH (continued)Implementation of Procedures for Cardio-Pulmonary Resuscitation and AED Use

The chief school administrator shall oversee the development and implementation of a district emergency action plan that establishes guidelines for use of the AED. The emergency action plan shall include:

- A. A list of no less than five school employees, team coaches, or licensed athletic trainers who hold current certifications from the American Red Cross, American Heart Association, or other training program recognized by the Department of Health, in cardio-pulmonary resuscitation and in the use of a defibrillator. The list shall be updated, as necessary, at least once in each semester of the school year; and
- B. Detailed procedures on responding to a sudden cardiac event including, but not limited to, the identification of the persons in the school who will be responsible for: responding to the person experiencing the sudden cardiac event, calling 911, starting cardio-pulmonary resuscitation, retrieving and using the defibrillator, and assisting emergency responders in getting to the individual experiencing the sudden cardiac event.

Any employee, student or other individual who inappropriately accesses and/or uses an AED will be subject to disciplinary action, up to and including expulsion from school and/or termination of employment. Civil and/or criminal liability may also be imposed on any student, employee or individual who inappropriately accesses and/or uses an AED. All usage will be reported to the board of education.

Immunity

A school district and its employees shall be immune from civil liability in the acquisition and use of defibrillators pursuant to the provisions of section 5 of P.L.1999, c.34 (C.2A:62A-27). A person who acts with gross negligence or willful misconduct in the use of defibrillators does not enjoy immunity.
